MEMORANDUM FOR: Legislative Counsel

25X1 ATTENTION:

VIA:

Director of Logistics  
Chief, Real Estate and Construction  
Division, OL

25X1 FROM:

Deputy Chief, Real Estate and Construction  
Division, OL

SUBJECT:

Data for House Appropriations Committee on  
Proposed CIA/DIA Collocation/Consolidation

1. Pursuant to our discussions with Messrs. Baird and Glynn, Surveys and Investigations Staff, House Appropriations Committee, I have attached for your review and transmittal, a file containing all documents which they requested from Real Estate and Construction Division, OL records. I have deleted only the names of persons who may be under cover, leaving their titles, and all classifications shown on the documents remain in effect (highest classification is CONFIDENTIAL). Included as attachment 1 to this memorandum is a listing of all documents contained in the file.

2. Please also advise Mr. Glynn that in response to his specific question concerning the number of computers required to support Project SAFE, our Office of Data Processing Representative advised that in his memorandum of 2 November 1977 (attachment 7 to my 3 November study) he assumed that both CIA-SAFE and DIA-SAFE would use separate, not joint, computer systems.

3. Finally, I have included as Attachment 2 a short Memorandum for the Record of our meeting with the House staffers. Please advise if I can provide further help.

MEMORANDUM FOR THE RECORD

SUBJECT: Meeting with House Appropriations Committee Staff  
Members Regarding DIA/CIA Collocation/Consolidation

25X1  
25X1

1. On 12 July, [redacted], Chief, Real Estate and Construction Division, [redacted] Office of Legislative Counsel (OLC), and the undersigned met with Mr. G. Carter Baird and Mr. Michael O. Glynn of the Studies and Investigations Staff, House Appropriations Committee, on the subject study. As a point of beginning, Mr. Baird related that he and Mr. Glynn had been tasked to prepare a study for Mr. Mahon, Chairman of the House Appropriations Committee (the study was actually requested by Mr. McKay of the Military Construction Subcommittee), on the following:

a. The validity of the requirement for the proposed DIA Headquarters Building.

b. Options for the siting of the building, including locations in the National Capital Region (NCR) as well as outside the NCR, for both full and partial DIA relocation options.

c. Other alternatives to new construction, including renovation or upgrade of existing facilities.

2. I briefed the two individuals, in some detail, on the project along the lines described in the attached project summary and chronology. The file was then made available to them for their review and an indication from them as to what documentation they desired to retain for their use. There were several questions regarding my own views as to the desirability and feasibility of the proposed project, and I generally responded citing the advantages which would accrue from collocation but pointing out that only the DCI was really in a position to assess the importance of such a proposal in terms of the community as a whole and improved understanding and cooperation which would result. Regarding the feasibility of the project, I enumerated the problems which would arise in terms of accomplishing the construction in a short time frame but emphasized that with Executive and Congressional support; these could be overcome.

SUBJECT: Meeting with House Appropriations Committee Staff  
Members Regarding DIA/CIA Collocation/Consolidation

25X1 3. Regarding control of classified documents, [redacted] and the House staffers agreed that, following their designation of documents they wished to retain, we would:

a. Sanitize the material at least with respect to the names of Agency personnel who are or could be under cover.

25X1 b. Have the remaining classified material reviewed by [redacted]

c. Obtain a receipt from the House staffers for the documents.

Following use, the House staffers agreed to return all the material to the Agency without retaining any copies.

25X1 4. Finally, [redacted] emphasized, particularly for Mr. Zaia and I, the point that there may be a number of other issues besides the specific DIA/CIA collocation/consolidation issue which are involved in Mr. Mahon's request for information, and, as a result, OLC review of information provided is desirable to preclude its use for other than that which is intended.

5. The House staffers appeared to be satisfied with the information provided.
